Forecast For East of England
Issued by Met Office Exeter
at 1600 on Thursday 07 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Widespread frost tonight. Occasional wintry showers Friday.

This Evening and Tonight:
Some freezing fog patches developing in western parts overnight, otherwise largely dry with clear spells, and this will allow a widespread frost to develop. Winds generally light. Minimum temperature -4 deg C (25 deg F).

Friday:
Turning rather cloudier with occasional wintry showers likely, especially in more northern areas of the region. Cold but winds mainly light. Frost and freezing fog returning overnight. Maximum temperature 4 deg C (39 deg F).

Outlook for Saturday to Monday:
Widespread frost and freezing fog patches on Saturday and Sunday, slow to clear in places. Otherwise, dry with some sunshine. Breezy, mostly cloudy on Monday, but less cold.
